November 5, 2019

Topic: Punjab Agriculture.

News:-Dr Swaminathan suggests the idea of rice bio parks to deal with the menace of stubble burning.

Suggestions:-

- Dr Swaminathan is a great agricultural scientist who had pioneered the Green Revolution in India.
- The great agricultural scientist has suggested that rice bio parks should be set up.

The purpose of the parks would be:-

1. The sustainable management of the paddy straw.
2. To ensure additional income support to the farmers.

Recent initiative:-

- India recently established a rice bio park in Nay Pyi Taw (Myanmar), under the Indo – Myanmar Friendship Project.
- The bio park would use the rice byproducts including husk, straw, bran etc
- The byproducts then would be converted into biomass value-added products like cattle feed, paper, and compost.
- It can also help in promoting Circular economy as more recycling of used products could be boosted.

So, through this ecological approach, sustainable agriculture can be promoted.

(Source:- The Tribune news)

Topic: Punjab Governance

News:-The Punjab and Haryana High court will enforce the provision of promotion of Disabled employees.

Context:-

- The High court staff would implement this scheme for its own employees.
- The scheme is in line with the Rights of persons with Disabilities act, 2016.
- The decision has been taken by the departmental promotion committee of the High court.
- The approval for the scheme was given by the Chief

Justice of the High court.

(Source:- The Tribune news)

Topic: environmental governance

News:- Illegal sand mining goes on in Ropar district.

Background: -

- The Mafia or goonda tax is being imposed by the sand mafia in the region.
- It has been reported that the Nakas has been set up to collect the tax.
- The price of Rs 4 per cubic feet for sand and gravel is being charged.
- The Sutlej, Swan and Sarsa river beds have been affected by the mining.

The disadvantages of this sand mining are: -

- The state is losing massive amounts of resources as it's environment is being polluted.
- The loss of river beds reduces the seepage of the water, which disturbs the natural hydrological balance.
- The river regime is badly affected.
- The biodiversity is also adversely affected.
